

BSA UPDATE & AGM

Thursday 11 September

At the BMO Business Centre, 178 Drayton St Dalby

3.45pm (for 4pm sharp start) until 6pm followed by light refreshments

HEAR THE LATEST ON

CSG Research

- GISERA overview
- Agricultural land management, Surface and groundwater programs

from guest speaker Damian Barrett, Director of Gas Industry Social & Environmental Research Alliance (GISERA). Prof Barrett has more than 20 years research experience in CSIRO, the CRC for Greenhouse Accounting, the Water CRC and the University of Queensland.

Legal 'Hot Topics'

- Regional planning and strategic cropping
- Now I have a CCA, what do I do with it?
- Protecting landholder rights
- Rehabilitation
- Changing legislation
- Material change of circumstances
- Fracking

from solicitors working in CSG negotiations including Shine Lawyers and Ferrier & Co.

HELP US KEEP UP THE FIGHT FOR A BETTER FUTURE FOR OUR FARMS, FAMILIES AND COMMUNITIES

Over the last four years, BSA has worked quietly (and sometimes not so quietly) to inject a landholder perspective into policy around CSG development. We have drawn attention to environmental issues, groundwater issues, and landholder rights that government and industry were not giving appropriate attention to.

There is still uncertainty around groundwater risks and land impacts, and ongoing struggle for landholders rights to be protected.

New members and nominations for committee are needed. If you have experience dealing with CSG companies, we would particularly encourage you to nominate. Visit our website www.notatanycost.com.au to download a form. Proxy forms are also available on our website.
